

BUZZ LIGHTYEAR – BIO Space Ranger

Buzz Lightyear is a member of the Universe Protection Unit of the Space Ranger Corps. He comes from the planet Morph in the Gamma Quadrant of Sector 4, where he protects the galaxy from the evil Emperor Zurg. Named after former NASA astronaut, Buzz Aldrin, this particular space ranger is best known for co-starring in the full-length animated films “Toy Story” and its sequel, “Toy Story 2.” Donning a high-tech space suit at all times, Buzz Lightyear’s high-pressure, deep-space visor and terillium carbonic alloy wings have adequately prepared him for his upcoming flight to the International Space Station taking place at the end of May 2008.

Buzz’s hobbies include defending the universe, acrobatic stunts and “falling with style.” His favorite saying is “to infinity and beyond!” His most recent rocket launch was on a “Big One” rocket, which successfully transported him and his pal Woody to the backseat of Andy’s mother’s car.

Despite his “petite” size (measuring just 12”), Buzz doesn’t seem intimidated or nervous for his upcoming trip. In fact, he is hoping he might even meet some Little Green Men on the journey. He’s been heard practicing “I Come in Peace” over and over again.

Buzz is venturing off on this mission to mark the opening of Toy Story Mania!, Disney Parks first 4-D interactive attraction inspired by the Disney•Pixar “Toy Story” films, which opens May 31 at Walt Disney World Resort in Florida. The attraction is also scheduled to open June 17 at Disneyland Resort in California.

Buzz is single and currently lives in Andy’s Room with best pals Sheriff Woody, Rex, Mr. Potato Head, Hamm and Slinky Dog.
