

sisters?

Or mother and daughter?

Why is it that when it comes to aging and our appearance, time appears to secretly stand still for some? In a revolutionary skin care breakthrough, Nu Skin and Purdue University have unlocked the science behind the secret. Research shows our personal levels of a newly discovered internal aging accelerator can make us look older or younger than our biological age.

Now Nu Skin has found a key to helping control your skin's destiny with Nu Skin Galvanic Facial Gels featuring ageLOC—a powerful aging antidote that helps decrease signs of visible aging. Only Nu Skin gives you control of your skin's future and helps you improve your appearance faster. So let our science be your secret and make your age a mystery.

Nu Skin Galvanic Facial Gels featuring ageLOC—Time will never tell.

Call 1-800-487-1000 or visit nuskinusa.com for more information.
