

When doctors know more, lives change.

Ortho Clinical Diagnostics is the science behind that knowledge.

When a diagnosis is made, the path to health becomes clearer. Better choices can be made sooner. For nearly 70 years, Ortho Clinical Diagnostics has provided the global healthcare community with the means to make better informed decisions. As a Johnson & Johnson company, we've pioneered some of the most important, life-impacting advances in diagnostics—from our earliest work in blood typing to the latest developments in laboratory systems.

Today, we're focused on creating innovative new diagnostic products, improving existing ones, advancing knowledge and shaping the future of diagnostics within global healthcare. Our reason for being is to help hospitals, laboratories and blood centers worldwide deliver results that help patients experience a better quality of life.

Who we are

Ortho Clinical Diagnostics serves the transfusion medicine community and laboratories around the world. We're a leading provider of total solutions for screening, diagnosing, monitoring and confirming diseases early, before they put lives at risk.

Headquarters: Raritan, NJ

Manufacturing Operations: Rochester, NY; Pompano Beach, FL; and Cardiff, Wales

Number of Employees: Ortho Clinical Diagnostics has more than 2,500 employees worldwide.

Commitment: We are dedicated to investing significant resources to continuously improve our products and develop solutions to address unmet medical needs and help save lives.

The science of knowing shapes the art of living.

What we do

Clinical Laboratories

VITROS® Chemistry, Immunodiagnostic and Integrated Systems

The VITROS® family of systems provides a more efficient workflow with flexible configurations, customized automation options and standardized reagents across all platforms. VITROS® Systems feature an accessible menu on-board at all times with over 120 available assays and 10 user-defined chemistry channels. Soon, a first-of-its-kind integrated system with centralized sampling and patented enabling technologies will be available to consolidate and simplify testing like never before. All VITROS® Systems help minimize staff interventions and downtime, so the lab can deliver better service to healthcare providers and patients.

Our chemistry and immunodiagnostic products include:

- + VITROS® 5,1 FS Chemistry System
- + VITROS® 350 Chemistry System
- + VITROS® ECiQ Immunodiagnostic System
- + VITROS® 3600 Immunodiagnostic System*
- + VITROS® 5600 Integrated System**
- + enGen™ Automation
- + World-class supply, service, support and process solutions

*Under development. Availability is subject to local regulatory requirements.

Transfusion Medicine

Immunohematology

Almost every blood transfusion in the world is touched in some way by an Ortho Clinical Diagnostics product.

We provide total solutions to help laboratories ensure that every patient receives a safe transfusion. Our products include:

- + ID-Micro Typing System™ Gel Test™¹
- + ORTHO ProVue¹
- + Traditional Blood Bank Reagents
- + ORTHO BioVue® System²
- + ORTHO AutoVue® Systems²

Donor Screening

The safety of the world's blood supply has been significantly impacted by Ortho Clinical Diagnostics products. Blood donor and plasma centers rely on us for high-quality solutions to meet rigorous compliance standards and provide blood and blood products that are free from known infectious diseases. Our screening products include:

- + Ortho Summit™ System
- + Screening Assays
- + Confirmatory Assays

RhoGAM® Rh_O(D) Immune Globulin (Human)

Before the introduction of RhoGAM® Brand in 1968, roughly 10,000 infants died each year in the U.S. alone from Hemolytic Disease of the Newborn (HDN).³

Today, the incidence of HDN has been virtually eliminated by the use of Rh immune globulin products like RhoGAM® Brand. Since its introduction 40 years ago, hundreds of thousands of newborns' lives have been saved. Millions of doses of RhoGAM® Brand have been administered to Rh-negative mothers worldwide to protect even the tiniest patients.

For more detailed information regarding the safe and effective use of RhoGAM® Brand please see the full Prescribing Information on www.OrthoClinical.com.
