

FUEL SERVICE

When it comes to performance, safety and fuel economy, your engine is the heart of your vehicle. As your vehicle's mileage increases, you're using more fuel, producing more emissions, and taking a chance of stalling or losing power. Make sure your engine performs when you need performance. Make Wynn's *Fuel Service* part of your normal vehicle maintenance schedule.

**CLOGGED
FUEL INJECTOR**

**CLEAN
FUEL INJECTOR**

**DIRTY
INTAKE VALVE**

**CLEAN
INTAKE VALVE**

Dirt, varnish buildup, corrosion, and carbon deposits restrict the flow of air and fuel to your engine. These are a natural result of fuel combustion and happen with all fuel-injected vehicles.

THE PROBLEM

- Hard starting
- Rough idling
- Hesitation
- Knocking
- Loss of power
- Poor fuel economy
- Increased emissions
- A need for higher octane gas

THE SOLUTION

Wynn's *Fuel Service* is designed to completely clean the entire fuel system, including:

- Fuel lines
- Fuel injectors
- Intake valves
- Combustion chambers
- Throttle plate and throttle valve

Wynn's *Fuel Service* restores the fuel system to its original design for:

- Maximum performance
 - Easy starting
 - Smooth idling
 - Increased power
 - Eliminate knocking
- Maximum fuel economy
- Minimum emissions

Plus, routine fuel system maintenance helps avoid other expensive repairs.

The Automotive Maintenance and Repair Association recommends fuel system cleaning service every year or 15 – 18,000 miles.
